GOZO REAL ESTATE

Description

This pretty (currently) one-bed farmhouse is hidden away down an alley and enjoys views of the Gozo Channel and Comino.

Access is via a narrow private alley. On entering there is a spacious living area leading out onto an elevated sun terrace. On this floor there is a large bedroom with a very large en-suite bathroom with shower and bath.

Stairs lead down to another living room opening out to a dining room and large kitchen. Doors lead to a lower terrace with BBQ and a small (currently overgrown garden). This area can either be landscaped or a small plunge-pool or Jacuzzi could be installed.

The property is very peaceful and private. It has great potential for expansion as it can be built up by a further two floors, making it a 3-4 bed farmhouse with terrace on each floor, making it excellent value for money.
