We are pleased to offer this lovely old farmhouse, dating back to the 1770's. Typical of farmhouses in Gozo, one first enters into a pretty traditional courtyard with an external staircase and a traditional well. Off this courtyard are entrances to the three main living rooms of the house at this level.

To the right is a very spacious and impressive traditional mill-room with arches spanning down to ground, currently used as a living room. This room opens out onto a private lower garden used for alfresco dining.
