GOZO REAL ESTATE

Description

This Charming traditional farmhouse (224sqm covered area spread over 2 floors) is located in a quiet location but just 2 minutes walk from the main square. The main door opens onto a covered area leading to a lovely enclosed courtyard with a small 12sqm pool, perfect for cooling off in the hot summers. There is space for sun loungers and also for alfresco dining for most of the year.

This courtyard (38sqm) is accessed directly from all three main living spaces. A living room with traditional stone arches looks onto the pool and also leads to the central dining room, also with traditional stone arches. This in turn leads to a well sized kitchen roofed with wooden beam and stone slabs (shorok) . Off the kitchen is a shower room.

The dining room leads to a bright rear staircase build with the original stones steps from the courtyard.
